Holiday Cookie Sorting

Try this sorting exercise using containers, cardstock paper cookies, and tongs! Find containers that resemble cookie jars in different colors or with different colored lids. Cut out several circles (cookies) from different colored cardstock sheets that match the cookie jars. Decorate the cookies using markers or crayons. Pick up the cookies and sort them into the same colored cookie jars!

Ice Cube Art

Fill ice cube trays with blue and white finger paint and freeze. Adding glitter to the finger paint makes it even more magical! Once the paint cubes are frozen, pop them out. Find different colored sheets of paper. You and your little one can create their own snow-themed artwork by holding the paint ice cube and swirling it on the paper. The paint will melt in the heat of your child's hands and create icy streaks across the paper in any way they want!
